

# Planning Your Technology Infused Lesson

Title:

Content Area(s):

Specific Topic:

Purpose:

## Examine the Activity

What am I asking my students to do?

What value will technology add to my lesson?

How might technology support and improve my student's learning?

## Rewrite the Activity

What technology is available for use in my school?

What software and hardware am I already comfortable using?

What skills will my students need to know?

What resources will I have my students using?

How will I group my students?

## Prepare the Materials

What type of directions and materials will I provide my students to help them complete their project?

## Create a Schedule

When will the computers be available?

What off-computer activities will my students be doing when computers are in use?

What must my students complete before they work on the computers?

## Introduce Lesson

How will I get my students excited about the activity?

## Share Student Work

How do I plan on having my students share their work with each other?

## Evaluate the Activity

How will I evaluate my students' final project?
